I will. Almost done with the SD SHPO letter to be sent today after your signature. Sarah still reviewing The Lodge.

I will jump on this task after and help Rick with those answers.

**Subject:** RE: Call to discuss ESA measures in Dewey-Burdock draft permits - can we reschedule this meeting for tomorrow, please?

Omar, Valois, and Doug,

Please see attached our proposed changes to the Class III and Class V draft permit conditions in regards to conditions on endangered species found in Part XIV B. of the Class III Draft Area Permit on pages 84-84 and Part IX. B of the Class V Draft Area Permit pages 44-45.

I have also attached an excerpt from EPA most recent cumulative effects analysis which gives the specifics on the ponds holding treated water and also an excerpt from Powertech's 2011 RAI response which details what we know about the vent hole (NRC Adams Accession #ML112071064) including a photo of the vent hole on page 16. I have highlighted these for your convenience.

John

Hi Everyone,

It turns out that a last minute conflict arose. Can we reschedule this call for tomorrow, please? We have 2 – 5 pm open.

Sorry about this.

Thanks!

A handwritten signature in cursive script that reads "Valois".
